

2012R2

However, accessing the same folder using a Windows 2003 R2 or Windows XP machine does not work

А так-же принтеры самсунг.

Что делать?

```
sc query srv
sc query srv2
sc config srv start=demand
```

```
Set-SmbServerConfiguration -EnableSMB1Protocol $true
get-SMBserverconfiguration
Set-SmbServerConfiguration -RejectUnencryptedAccess $false
```

Windows cannot find «[\\servername\test](#)». Check the spelling and try again, or try bt blah blah blah.

```
HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Services\LanmanServer\DependOnService
Original Value: SamSS Srv2
Change to: SamSS Srv
```

reboot the server!

[Can't access UNC share on Windows Server 2012 R2,, xp,, 2012,, r2,, открыть,, диск не доступен,, совсем охуели](#)
