

# Десятка покупаемых товаров

Допил оригинального /modules/mod\_virtuemart\_topten/mod\_virtuemart\_topten.php чтобы показывался один самый продаваемый товар с картинкой. Обратит внимание - JRoute::\_(\$router\_url) использовать только с установленным router.php!

Если router.php нет, то изменения такие:

```
$router_url =  
'index.php?page=shop.product_details&flypage=flypage_images.tpl&product_id='  
. $pr_id . '&category_id=' . $cat_id;
```

и вместо

```
$sess->purl( JRoute::_($router_url));
```

делаем

```
$sess->purl( $router_url );
```

## mod\_virtuemart\_topten.php
