

Windows: создаем и удаляем сервис из Powershell

Документация:

- <https://docs.microsoft.com/en-us/powershell/module/microsoft.powershell.management/new-service>
- <https://docs.microsoft.com/en-us/powershell/module/microsoft.powershell.management/remove-service>

Создаем:

```
New-Service -Name "MyService" -BinaryPathName "C:\Path\to\myservice.exe"
```

Удаляем:

```
Remove-Service -Name "TestService"
```

Удаляем по DisplayName:

```
Get-Service -DisplayName "Test Service" | Remove-Service
```

[windows](#), [service](#), [services.msc](#), [create](#), [remove](#)
